

MARTIAN BASE

Step 1.

Using an old paint brush, apply a layer of Citadel's 'Martian Ironearth' to the top of the base. Ontop of this, add some of Citadel's 'Martian Ironcrust' to create a patchy crust.

The base does not need to be left to dry before the second layer is applied.

Step 2.

Allow the base to dry for a few hours before attaching your miniature to the Martian landscape.
